

Competition Organisers Report

I want to begin my report with praise for the three competition officers John Gilkerson, Chris Morton and Bill Stephens. This year they have handled in total 2,340 images distributed across mono and colour prints, colour slides and D.I. not in equal quantities but this is where team work comes in and they have worked as a team supporting each other and taking this large entry from the unpacking stage to results and return of work, cooperating as an efficient team. During the judging weekend they were supported by a group of volunteers whose work and experience is invaluable and who also deserve our sincere thanks. My thanks also to Pat Morton for her support and expertise in the production of this results document.

This year the total entries saw another small increase in prints, the number of DI images more than double and the slide entry remain about the same. The Beginners competitions were however a disappointment. The Projected Images section did not increase as we had expected and the print entry actually dropped. There are a number of beginners in many clubs and it is the job of the Competition Secretaries in the clubs to tell the beginners about the competitions and to encourage them to enter their work.

Communication is vital to all we do in the Federation. The competition rules and entry forms are sent to the club competition officer who then has the responsibility of communicating these to club members. The same applies to these results when they are received by the competition officer. It is his/her responsibility to make sure the members see them when next the club is functioning, even if this is the next photographic season. To make this rather substantial document easier to display it has this year been printed in five units [Club results, Colour prints, Monochrome prints, Colour slides, D.I.] these can be separated, re-stapled and then displayed on a notice board more easily. Please make sure your members see these results and especially if some of their work has been retained for the Alliance entry or the Portfolio.

On behalf of Northern Counties Photographic Federation I offer sincere thanks to the judges and selectors listed on the front cover of this document who gave of their time and expertise with excellent results. NCPF also wishes to thank Tynemouth Society for the hire of their club rooms over the competition weekend.

Jane H. Black ARPS APSA Hon. PAGB
Competition Organiser.
