

Chapter 80 leaves one matter unresolved in the text of the novel, quite deliberately.

Yet the Portable Document Format document containing Chapter 80 contains the answer.

The answer can be found by opening the Portable Document Format document in a Portable Document Format document reader and looking at the document properties of the document and noting the names of the fonts used to produce the document, one of which was produced especially for Chapter 80, by renaming a copy of a font that I had produced some years earlier.

The novel was completed in February 2019. I enjoyed writing the novel.
