

Of a design for a reusable bag for products in glass

A font for a specially noticeable counterchanged colours bag for

products in glass

Maybe the bag is totally red -

Distinctive by its colour that special care is to be taken -

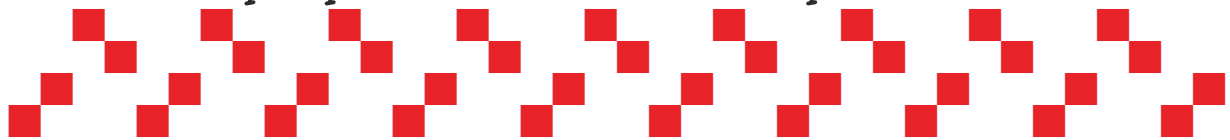

Easily located amongst other bags

Yet maybe manufacturing is by printing upon white plastic -

A design with squares could make the bag distinctive -

Maybe the lettering could be in red -

Or perhaps counterchanged with white upon a red bar

products in glass
